

**REMARKS**

This submission is further to the prior amendment, following a telephone discussion by the undersigned with the examiner. The examiner had questioned the support for "arrangement" marks and noted a typo in claim 18. Upon discussion, it was suggested by the undersigned that the proposed amendments to the claims would overcome the support questions raised, and further prent the claims in a logical manner. As amended, the examiner suggested that the claims would probably be allowable, a comment that was appreciated.

Dated: July 28, 2006

Respectfully submitted,

By
